Geometric enables integration of Teamcenter and DELMIA

Mumbai, India, March 5, 2009: [Geometric Limited](#) (BSE: 532312, NSE: GEOMETRIC), a leader in Product Lifecycle Management (PLM) solutions and technologies, today announced the release of its [enterprise integration solution](#) for Teamcenter® software and DELMIA®, to help customers integrate their Teamcenter and DELMIA implementations.

Geometric's new interoperability solution provides process driven integration to enable the exchange of design, engineering and manufacturing data between Siemens PLM Software's Teamcenter digital lifecycle management software portfolio and Dassault Systèmes' DELMIA Manufacturing Hub. It enables a unified product reference, resulting in the availability of latest and in-context product information for manufacturing users, and early validation of engineering changes from the manufacturing perspective, thereby substantially reducing the change cycle-times and the associated costs of incorporating such changes.

Geometric has CAA Partnership with Dassault Systèmes and Foundation Partnership with Siemens PLM Software to build and distribute the solution, thereby ensuring support for the latest releases of Teamcenter and DELMIA.

"Manufacturing companies are increasingly adopting Digital Manufacturing to increase their productivity, and attempting to integrate it within their PLM solutions. Our Teamcenter and DELMIA integration solution helps customers collaborate between design and manufacturing domains to bring in a reduction in cost and time-to-market", said Vijay Soni, Interoperability Practice Head, Geometric Limited.

Leveraging two decades of experience in designing, delivering, and deploying PLM solutions and its partnership with leading PLM vendors, Geometric has developed a number of niche enterprise interoperability solutions. These solutions help organizations optimize their PLM investments, thus, allowing them to deploy the PLM technologies of their choice.

About Geometric

Geometric is a specialist in the domain of engineering solutions, services and technologies. Its portfolio of Global Engineering services and Digital Technology solutions for Product Lifecycle Management (PLM) enables companies to formulate, implement, and execute global engineering and manufacturing strategies aimed at achieving greater efficiencies in the product realization lifecycle.

Headquartered in Mumbai, India, Geometric was incorporated in 1994 and is listed on the Bombay and National Stock Exchanges. The company recorded consolidated revenues of Rupees 4.86 billion (US Dollars 121.6 million) for the year ended March 2008. It employs close to 3000 people across 10 global delivery

locations in the US, France, Romania, India, and China. Geometric is assessed at SEI CMMI Level 5 for its software services and ISO 9001:2000 certified for engineering operations.

Teamcenter is a trademark or registered trademark of Siemens Product Lifecycle Management Software Inc. or its subsidiaries in the United States and in other countries.

DELMIA is a trademark or registered trademark of Dassault Systèmes or its subsidiaries in the United States and in other countries.
