Geometric to showcase CAMWorks 2010 at ACMEE 2010

Mumbai, India, June 08 2010: [Geometric Limited](#) (BSE: 532312, NSE: GEOMETRIC), a leader in Product Lifecycle Management (PLM), Engineering Services and Offshore Product Development (OPD) solutions and technologies, announced that it will showcase its leading CAM product, CAMWorks® at Booth # D-19 at ACMEE 2010, that will be held at Chennai Trade Centre, Chennai, India, from June 17-21, 2010.

Technical experts from Geometric and its reseller, CAM Technologies, will be available at the booth to answer queries from visitors and demonstrate the new features of CAMWorks 2010.

“CAMWorks 2010 has a number of intelligent features to address the component manufacturing challenges in Indian manufacturing industry. CAMWorks is based on the latest machining concepts, which helps the new users to adapt well to the increasing demands in quality, productivity, and time to market”, said Sambit Pradhan, Business Development Manager, APAC Region.

The latest release of CAMWorks 2010 includes a number of improvements in multi-axis machining, which enable toolpath generation on increasingly complex part models. New controls have been added to simplify processing of impellers and blisks. Safely entering and retracting from the part has also become more flexible and easier than previous versions.

In addition, other features enable the NC programmer to machine parts faster. The computation for machining time has been modified and updated as well, to provide a more accurate estimate, thereby helping manufactures in costing and process planning. Support for SQL Server Express has been added to improve performance in large scale deployments of CAMWorks.

CAMWorks 2010 supports SolidWorks 2009 and 2010 running under 32- and 64-bit XP, Vista, and Windows 7.

About ACMEE

ACMEE 2010 is one of India’s leading machine tools and auto components exhibition that showcases innovations in automobile and mechanical engineering industries.

About CAMWorks

CAMWorks, the first SolidWorks® certified Gold CAM product, and the first CAM solution to offer knowledge-based feature recognition and associative machining capabilities, helps eliminate the drudgery of CNC programming. The combination of the latest innovations in CAMWorks and SolidWorks' excellence in design, have made CAMWorks the premier CAM solution for manufactures in the automotive, aerospace, electronics and medical industries. To know more about CAMWorks, visit www.camworks.com.

About Geometric

Geometric (www.geometricglobal.com) is a specialist in the domain of engineering solutions, services and technologies. Its portfolio of Global Engineering services and Digital Technology solutions for Product Lifecycle Management (PLM) enables companies to formulate, implement, and execute global engineering and manufacturing strategies aimed at achieving greater efficiencies in the product realization lifecycle.

Headquartered in Mumbai, India, Geometric was incorporated in 1994 and is listed on the Bombay and National Stock Exchanges. The company recorded consolidated revenues of Rupees 5.12 billion (US Dollars 108.1 million) for the year ended March 2010. It employs close to 3000 people across 11 global delivery locations in the US, France, Romania, India, and China. Geometric is assessed at SEI CMMI Level 5 for its software services and ISO 9001:2000 certified for engineering operations.

Geometric's Desktop Products and Technologies (DPT) business develops cutting-edge point productivity solutions that enhance design and improve manufacturing operations. The end-user products from Geometric include CAMWorks®, eDrawings® Publisher, DFMPPro, GeomCaliper® and 3DPaintBrush™. The key technologies from Geometric are NestLib®, Feature Recognition (FR), GeomDiff and 3DSearchIT®. Geometric licenses these technologies to OEM partners and also designs and implements customized process solutions using these technologies for industrial customers.
