## CIMdata recognizes Geometric as one of the five most rapidly growing CAM software vendors in 2010

Scottsdale, Arizona, August 17, 2011: [Geometric](#), a leader in developing advanced manufacturing software, announced that it has been identified as one of the five fastest growing CAM software vendors for 2010, according to the recently released NC Software and Related Services Market Assessment Report, Version 20, by leading management consulting and technology research firm, [CIMdata, Inc.](#) Geometric is also projected to be amongst the top five fastest growing CAM vendors for 2011 for its NC software, [CAMWorks®](#) by the research firm. The assessment is based on the projected revenue growth.

CAMWorks, the most advanced CAM programming software available for getting products to market faster, more efficiently, and within budget. CAMWorks is a next generation best-of-class CNC programming solution for producing molded parts from solid models.

Mr. Sameer Kondejkar, Head, Geometry Technology Solutions Business at Geometric said, “We have been consistently providing the CAM community with the latest enhancements and features, accompanied with timely support. Our focused advancements based on customer feedback, strong reseller engagement, and dedicated marketing efforts have resulted in a strong year for CAMWorks. We are committed to continuously developing CAMWorks to help drive innovation in the manufacturing industry”.

CAMWorks® 2011, the latest version of the NC software, provides significant new capabilities, including enhanced automation, improved knowledge-based machining information, new electrode design solution for mold and die industry, smarter tool paths, and more.

### About CAMWorks

CAMWorks® is the first Gold Partner CAM (computer-aided manufacturing) solution designed exclusively to operate in SolidWorks. CAMWorks runs within SolidWorks, or as part of a cost-effective CAD/CAM package that includes CAMWorks Solids, an integrated solid modeler. For more information on CAMWorks, visit [www.camworks.com](http://www.camworks.com).

### About Geometric

Geometric ([www.geometricglobal.com](http://www.geometricglobal.com)) is a specialist in the domain of engineering solutions, services and

technologies. Its portfolio of Global Engineering services and Digital Technology solutions for Product Lifecycle Management (PLM) enables companies to formulate, implement, and execute global engineering and manufacturing strategies aimed at achieving greater efficiencies in the product realization lifecycle.

Headquartered in Mumbai, India, Geometric was incorporated in 1994 and is listed on the Bombay and National Stock Exchanges. The company recorded consolidated revenues of Rupees 6.21 billion (US Dollars 136.47 million) for the year ended March 2011. It employs close to 3900 people across 10 global delivery locations in the US, Romania, India, and China. Geometric was assessed at CMMI 1.1 Level 5 for its software services and ISO 9001:2008 certified for engineering operations. The company's operations are also ISO 27001:2005 certified.

Geometric's Geometry Technology Solutions (GTS) business unit develops cutting-edge point productivity solutions that enhance design and improve manufacturing operations. The end-user products from Geometric include CAMWorks®, eDrawings® Publisher, DFMPPro, GeomCaliper® and 3DPaintBrush™. The key technologies from Geometric are NestLib®, Feature Recognition (FR), GeomDiff and 3DSearchIT®. Geometric licenses these technologies to OEM partners and also designs and implements customized process solutions using these technologies for industrial customers.
