## CIMdata projects Geometric as a rapidly growing CAM software vendor in 2010

Scottsdale, Arizona, June 23, 2010: [Geometric](#), a leader in developing advanced manufacturing software announced that it has been identified to be one of the fastest growing CAM software vendors in 2010, according to the recently released NC Software and Related Services Market Assessment Report, Version 19, by leading management consulting and technology research firm, [CIMdata, Inc.](#) The assessment is based on the projected revenue growth.

Geometric's CAM software, [CAMWorks](#)<sup>®</sup> with Machining Intelligence is the most advanced CAM programming software available for getting products to market faster, more efficiently, and within budget. CAMWorks is a next generation best-of-class CNC programming solution for producing molded parts from solid models.

"We are pleased to be projected by CIMdata as a one of the fastest growing CAM vendors in 2010", said Dr. Vinay Kulkarni, Vice President and Head, Desktop Products at Geometric. "Geometric has been consistently providing the CAM community with the latest enhancements and features, accompanied with timely support; and is committed to continuously developing CAMWorks to help drive innovation in the manufacturing industry".

### About CAMWorks

CAMWorks<sup>®</sup> is the first Gold Partner CAM (computer-aided manufacturing) solution designed exclusively to operate in SolidWorks. CAMWorks runs within SolidWorks, or as part of a cost-effective CAD/CAM package that includes CAMWorks Solids, an integrated solid modeler. For more information on CAMWorks, visit [www.camworks.com](http://www.camworks.com).

### About Geometric

Geometric ([www.geometricglobal.com](http://www.geometricglobal.com)) is a specialist in the domain of engineering solutions, services and technologies. Its portfolio of Global Engineering services and Digital Technology solutions for Product Lifecycle Management (PLM) enables companies to formulate, implement, and execute global engineering and manufacturing strategies aimed at achieving greater efficiencies in the product realization lifecycle.

Headquartered in Mumbai, India, Geometric was incorporated in 1994 and is listed on the Bombay and National Stock Exchanges. The company recorded consolidated revenues of Rupees 5.12 billion (US Dollars 108.1 million) for the year ended March 2010. It employs close to 3000 people across 11 global delivery locations in the US, France, Romania, India, and China. Geometric is assessed at SEI CMMI Level 5 for its software services and ISO 9001:2000 certified for engineering operations.

Geometric's Desktop Products and Technologies (DPT) business unit develops cutting-edge point productivity solutions that enhance design and improve manufacturing operations. The unit includes Scottsdale AZ-based business subsidiary, Geometric Technologies (A division of Geometric Americas, Inc.). The end-user products from Geometric include CAMWorks®, eDrawings® Publisher, DFMPPro, GeomCaliper® and 3DPaintBrush™. The key technologies from Geometric are NestLib®, Feature Recognition (FR), GeomDiff and 3DSearchIT®. Geometric licenses these technologies to OEM partners and also designs and implements customized process solutions using these technologies for industrial customers.
