Geometric to showcase solutions for addressing the new world challenges through PLM 2.0 at DSCC 2010

Mumbai, India, October 27, 2010: [Geometric Limited](#) (BSE: 532312, NSE: GEOMETRIC), a specialist in the domain of Software Services, Global Engineering Solutions, and Technologies will exhibit its capabilities in PLM solutions and services, primarily its rapid transition solutions and frameworks for V6 product suite including ENOVIA V6, and its value added Application Management Services (AMS) at Dassault Systèmes Customer Conference (DSCC) 2010, at Orlando, Florida from Nov 9 to 10, 2010.

With over two decades of experience in CAx, PLM, and engineering services, Geometric has deep understanding of solutions and needs for new product development process. A Gold Partner of Dassault Systèmes, the company has extensive product development and services experience across the Dassault Systèmes technology footprint, with offerings ranging from core research & development, and consulting, to implementation and training across multiple industry verticals. .

“The V6 product suites represent a significant technology change in the PLM ecosystem. Over the past year or so we have worked to develop a framework and set of tools that enable quick and error free migration or upgrade to V6. We help our customers derive optimum value from their V6 implementation, faster,” says Mr. Nitin Tappe, Vice President and Business Unit Head for Software Services at Geometric.

“We also work closely with our customers for expert Application Management Services. The IT landscape across engineering and manufacturing is highly complex today. Maintenance and support for PLM, related CAx and other engineering applications needs to be looked at differently. We have succeeded in providing global AMS services for landscapes, where new technologies and applications have been introduced regularly to work with a host of custom engineering tools, and we are confident that we can do so for the V6 users as well” he adds.

Attendees to the event will also be able to explore Geometric’s solutions and services across the software application lifecycle and get a good perspective of Geometric’s long standing partnership with Dassault Systèmes.

About Geometric

Geometric (www.geometricglobal.com) is a specialist in the domain of engineering solutions, services and technologies. Its portfolio of Global Engineering services and Digital Technology solutions for Product Lifecycle Management (PLM) enables companies to formulate, implement, and execute global engineering and manufacturing strategies aimed at achieving greater efficiencies in the product realization lifecycle.

Headquartered in Mumbai, India, Geometric was incorporated in 1994 and is listed on the Bombay and National Stock Exchanges. The company recorded consolidated revenues of Rupees 5.12 billion (US Dollars 108.1 million) for the year ended March 2010. It employs close to 3000 people across 11 global delivery

locations in the US, France, Romania, India, and China. Geometric was assessed as CMMI 1.1 Level 5 for its software services and is ISO 9001:2008 certified for engineering operations.
