### Geometric to display automation intelligence at METAV 2010

#### *To showcase new functionalities of CAMWorks 2010 and DFMPPro version 2.1*

**Scottsdale, Arizona, February 11, 2010:** Geometric Technologies, Inc., a subsidiary of [Geometric Limited](#) and an industry leader in developing advanced manufacturing software will showcase the latest releases of [CAMWorks®](#) and [DFMPPro](#) at [METAV](#) 2010 along with its European resellers, Geovision GmbH and [SolidLine AG](#), at booth #D47, Hall No. 9, in Düsseldorf Trade Fair Centre, Germany from February 23 - 27, 2010.

“CAMWorks is seamlessly integrated within the SolidWorks® platform, and enables intelligence and automation in design as well as manufacturing processes. Whereas, DFMPPro facilitates upstream manufacturability validation and identification of areas in design that are difficult, expensive or impossible to manufacture. CAMWorks and DFMPPro together provide an integrated solution for manufacturing companies looking for ways to reduce cost and time to market, while also improving the quality of manufactured parts”, said Robert Hutter, Director, Product Sales - Europe

CAMWorks 2010 has over 50 new features and advancements for machining faster and more accurately. This release also has significant advances in 3 axis functionality, as well as new features and cutting strategies for 2 to 5 axis milling, turning, and wire EDM. CAMWorks, the first CAM solution to offer knowledge-based feature recognition and associative machining capabilities, continuously enhances its features in line with customer feedback and requirements, and to better integrate with the SolidWorks platform. For more information on CAMWorks, please visit [www.camworks.com](http://www.camworks.com).

DFMPPro version 2.1 adds an [injection molding module](#) packed with some of the most important best industry-wide practices for manufacturability of injection molded components related to wall thickness, draft analysis, undercuts, mold wall thickness, ribs, bosses, etc. SolidWorks users will be able to quickly verify their designs within SolidWorks, thus reducing cost and time-to-market, while also improving the quality of manufactured parts. DFMPPro also facilitates collaborative design review process by generating comprehensive 3D reports in eDrawings format. This capability is very useful for suppliers to quickly generate eDrawings reports and share it with the OEM for their review, comments and acceptance. For more information on DFMPPro, and how it helps in create designs right the first time, visit [www.dfmpro.com](http://www.dfmpro.com)

## About Geometric

Geometric ([www.geometricglobal.com](http://www.geometricglobal.com)) is a specialist in the domain of engineering solutions, services and technologies. Its portfolio of Global Engineering services and Digital Technology solutions for Product Lifecycle Management (PLM) enables companies to formulate, implement, and execute global engineering and manufacturing strategies aimed at achieving greater efficiencies in the product realization lifecycle.

Headquartered in Mumbai, India, Geometric was incorporated in 1994 and is listed on the Bombay and National Stock Exchanges. The company recorded consolidated revenues of Rupees 5.98 billion (US Dollars 129.47 million) for the year ended March 2009. It employs close to 3000 people across 11 global delivery locations in the US, France, Romania, India, and China. Geometric is assessed at SEI CMMI Level 5 for its software services and ISO 9001:2000 certified for engineering operations.

Geometric's Desktop Products and Technologies (DPT) business unit develops cutting-edge point productivity solutions that enhance design and improve manufacturing operations. The end-user products from Geometric include CAMWorks®, eDrawings® Publisher, DFMPPro, GeomCaliper® and 3DPaintBrush™. The key technologies from Geometric are NestLib®, Feature Recognition (FR), GeomDiff and 3DSearchIT®. Geometric licenses these technologies to OEM partners and also designs and implements customized process solutions using these technologies for industrial customers.

For further details about Geometric's DPT business unit, please visit [www.geometricglobal.com/products](http://www.geometricglobal.com/products) or call +1.480.367.0132
