Geometric Technologies introduces CAMWorks 2008 at Reseller Meetings in America, Europe and Asia

Conducts training for Resellers and shares future plans

Scottsdale, Arizona. December 20, 2007

Geometric Technologies, Inc. (formerly TekSoft, Inc.), an industry leader in developing advanced manufacturing software, recently held reseller conferences in America, Europe and Asia.

Mike Coleman, CEO of Geometric Technologies, hosted all the meetings and reiterated Geometric's gratitude and continuing support to the Value Added Resellers (VARs) for promoting and supporting CAMWorks®. Commenting on the outcome of the meetings, he said, "With over 50 enhancements in CAMWorks 2008, our VARs were excited to learn how these new capabilities can help their customers to machine faster and more accurately. Our resellers are the first line of support for our customers and the training sessions prepared them to provide quality support services and training. In addition to the CAMWorks 2008 rollout, we outlined our plans for CAMWorks 2008EX and CAMWorks 2009. This will help our VARs to prepare for supporting the next major releases."

One of the key resellers, Mr. Lutz Feldmann from SolidLine AG commented, "The recent reseller meeting of Geometric in Amsterdam was time well spent. CAMWorks business is really getting better and better and the new opportunities especially with DFMPPro are great!"

Geometric Technologies has also added new VARs in Europe and Asia to strengthen its operations in these regions.

CAMWorks is a SolidWorks® Certified Gold CAM product with state-of-the-art machining capabilities seamlessly integrated into SolidWorks 3D mechanical design software since 1997. The combination of the latest innovations in CAMWorks 2008 and SolidWorks' excellence in design continue to make CAMWorks a premier CAM solution.

CAMWorks can be purchased to run with SolidWorks or as a cost-effective package - CAMWorks Solids, a standalone version of CAMWorks, with integrated solid modeling capabilities. For more information on CAMWorks, visit www.camworks.com .

About Geometric

Geometric is a specialist in the domain of engineering solutions, services and technologies. Its portfolio of Global Engineering services and Digital Technology solutions for Product Lifecycle Management (PLM), enable companies to formulate, implement, and execute global engineering and manufacturing strategies aimed at achieving greater efficiencies in the product realization lifecycle.

Geometric was incorporated in 1994 and is headquartered in Mumbai, India. It is listed on the Bombay Stock Exchange (BSE: 532312) and the National Stock Exchange (NSE: GEOMETRIC) in India. For its consolidated operations for the year ending March 2007, the company recorded revenues of 3.95 Billion Rupees (85 Million US Dollars), with market capitalization of 6.2 Billion Rupees (142 Million US Dollars) as on 31st March 2007.

Geometric's Desktop Products and Technologies (DPT) business unit develops cutting-edge point productivity solutions that enhance design and improve manufacturing operations. The unit includes Phoenix AZ-based business subsidiary, Geometric Technologies, Inc., formerly TekSoft, Inc., which has over twenty five years in progressive product innovation. It develops and markets CAMWorks®, a SolidWorks® certified Gold CAM product, besides marketing and distributing Geometric's products and technologies.

The end-user products from Geometric include CAMWorks, eDrawings Publisher, DFM Pro and GeomCaliper®. eDrawings Publisher is a lightweight intuitive collaboration tool for 3D models that enables publishing of 3D model from all major CAD systems. DFM Pro is an automated intuitive tool for designers to accurately predict the manufacturability of models. GeomCaliper is an integrated, automated and easy to use thickness checker for 3D CAD models.

The key technologies from Geometric are NestLib®, Feature Recognition (FR), GeomDiff and 3DSearchIT®. Geometric licenses these technologies to OEM partners and also designs and implements customized process solutions using these technologies for industrial customers.
