New version of DFMPPro 2008 available from Geometric

Includes reporting functionality and 64-bit support

Mumbai, India. November 29, 2007

Geometric Ltd., a leader in Product Lifecycle Management (PLM) services and technologies, today announced the release of Service Pack 1 of **DFMPPro 2008** on SolidWorks® platform, which focuses on report generation functionality and 64-bit platform support.

DFMPPro now generates reports that include:

- Tabular summary of results
- Parametric information (expected vs actual) about failure instances
- Grouped image snapshots of failures based on failure type
- CAD independent, browser viewable reports
- Customizable style sheets for formatting reports
- Report data in XML format for easy integration with other enterprise systems

DFMPPro 2008 on SolidWorks has been enhanced to support 64-bit Windows XP OS in order to leverage better processing power and larger computing memory.

Please visit DFMPPro 2008 product website at: <http://dfm.geometricglobal.com> to download a free 15-day trial version of the new release.

For pricing details and purchase options please contact: [dfm.sales\(at\)geometricglobal.com](mailto:dfm.sales(at)geometricglobal.com)

DFMPPro is a revolutionary "Design For Manufacturability" productivity tool for industrial designers. It facilitates upstream manufacturability validation and identification of areas in design that are difficult, expensive, and impossible to manufacture. DFMPPro includes advanced design rules for manufacturing processes such as milling, drilling, turning, and sheet-metal fabrication. It also contains rules to process manufacturing tolerances specified using SolidWorks Intelligent Feature Technology. Tightly integrated with SolidWorks, DFMPPro is an add-in that allows designers to perform complete design checks and analysis for manufacturability, all within SolidWorks sessions.

END OF RELEASE

About Geometric

Geometric is a specialist in the domain of engineering solutions, services and technologies. Its portfolio of Global Engineering services and Digital Technology solutions for Product Lifecycle Management (PLM), enable companies to formulate, implement, and execute global engineering and manufacturing strategies aimed at achieving greater efficiencies in the product realization lifecycle.

Geometric was incorporated in 1994 and is headquartered in Mumbai, India. It is listed on the Bombay Stock Exchange (BSE: 532312) and the National Stock Exchange (NSE: GEOMETRIC) in India. For its consolidated operations for the year ending March 2007, the company recorded revenues of 3.95 Billion Rupees (85 Million US Dollars), with market capitalization of 6.2 Billion Rupees (142 Million US Dollars) as on 31st March 2007.

Geometric's Desktop Products and Technologies (DPT) business unit develops cutting-edge point productivity solutions that enhance design and improve manufacturing operations. The unit includes Phoenix AZ-based business subsidiary, Geometric Technologies, Inc., formerly TekSoft, Inc., which has over twenty five years in progressive product innovation. It develops and markets CAMWorks®, a SolidWorks® certified Gold CAM product, besides marketing and distributing Geometric's products and technologies.

The end-user products from Geometric include CAMWorks, eDrawings Publisher, DFMPPro and GeomCaliper®. eDrawings Publisher is a lightweight intuitive collaboration tool for 3D models that enables publishing of 3D model from all major CAD systems. DFMPPro is an automated intuitive tool for designers to accurately predict the manufacturability of models. GeomCaliper is an integrated, automated and easy to use thickness checker for 3D CAD models.

The key technologies from Geometric are NestLib®, Feature Recognition (FR), GeomDiff and 3DSearchIT®. Geometric licenses these technologies to OEM partners and also designs and implements customized process solutions using these technologies for industrial customers.
