Geometric is now a Microsoft Certified Partner

Geometric distinguishes itself with a Custom Development Solutions competency in the Microsoft Partner Program

Mumbai, India. November 28, 2007

Geometric Limited, a specialist in the domain of engineering solutions, services & technologies and a global provider of complete lifecycle outsourcing solutions for commercial software product development, today announced that it has achieved “Certified Partner” status in the “Microsoft Partner Program”. As a Microsoft Certified Partner, Geometric demonstrates a very high degree of competence and expertise in Microsoft technologies.

Geometric addresses clients’ evolving business needs with flexible engagement models; end-to-end product development capabilities, including release management and technical support; collaborative R&D processes; and its own products and technologies that result in a faster time to market for its customers. Geometric has delivered value in software product development to leading companies in the PLM & Engineering solutions domain, as well as for growing niche technology companies.

“Achieving Certified Partner status is an important milestone for Geometric, which recognizes the capabilities of our practices and delivery teams and their commitment to delivering products based on Microsoft technologies. This status will help us create value added solutions in areas of our core competence of PLM and Manufacturing, on Microsoft Technologies,” said Rajaramana Macha, Chief Operating Officer, Geometric Limited. Venkatesh Jagannath, Global Practice and Business Head of Software Product Lifecycle Solutions (SPLS) added, “Over the past few years, Microsoft has renewed its focus on the Manufacturing vertical and is working closely with ISVs for PLM and Manufacturing solutions many of whom are also our key customers and prospects. We are now able to leverage Microsoft’s technology excellence as a competitive advantage, both for us and for our customers.”

Geometric joined the Microsoft Partner Program as part of its effort to build capabilities for customers and partners who are developing new age software solutions on the latest Microsoft technologies. Going forward, Geometric will create a Microsoft Center of Excellence to track and develop expertise and best practices across various Microsoft platforms. This initiative will ensure that Geometric stays on the cutting edge of Microsoft technologies, and continues to provide architectural, design and development services to ISVs and industrial customers. Geometric is already helping its customers release their products on Microsoft Vista and SOA using the .Net framework.

The “Microsoft Partner Program”, launched in October 2003, represents Microsoft’s ongoing commitment to the success of partners worldwide. It offers a single, integrated partnering framework that recognizes partner expertise, rewards the total impact that partners have in the technology marketplace, and delivers more value to help partners’ businesses be successful. Microsoft Certified Partners receive a rich set of benefits, including first hand access to Microsoft for competency building, training and technical support.

END OF RELEASE

About Geometric

Geometric is a specialist in the domain of engineering solutions, services and technologies. Its portfolio of Global Engineering services and Digital Technology solutions for Product Lifecycle Management (PLM), enable companies to formulate, implement, and execute global engineering and manufacturing strategies aimed at achieving greater efficiencies in the product realization lifecycle.

Geometric was incorporated in 1994 and is headquartered in Mumbai, India. It is listed on the Bombay Stock Exchange (BSE: 532312) and the National Stock Exchange (NSE: GEOMETRIC) in India. For its consolidated operations for the year ending March 2007, the company recorded revenues of 3.95 Billion Rupees (85 Million US Dollars), with market capitalization of 6.2 Billion Rupees (142 Million US Dollars) as on 31st March 2007.

The company has two main business subsidiaries. Geometric Engineering, Inc., formerly Modern Engineering, Inc., headquartered in Rochester Hills MI, provides product engineering and manufacturing engineering solutions to the automotive and industrial sectors. Geometric Technologies, Inc., formerly Teksoft, Inc., headquartered in Phoenix AZ, develops and supplies cutting-edge productivity solutions for manufacturing operations.

Geometric employs over 3000 people delivering solutions from 10 global delivery locations in the US, France, Romania, India, and China. The company is assessed at SEI CMMI Level 5 for its software services and the engineering operations are ISO 9001:2000 certified.
