## Geometric to unveil DFMPPro for Pro/ENGINEER at PTC World 2008

DFMPPro registration for beta program will start at the show

**Mumbai, India. May 16, 2008:** [Geometric Limited](#) (BSE: 532312, NSE: GEOMETRIC), a leader in Product Lifecycle Management (PLM) solutions and technologies, today announced that a new offering for Pro/ENGINEER users, 'DFMPPro for Pro/ENGINEER', will be showcased during the PTC User World 2008 in Long Beach, CA. Geometric will be at Booth # 301 from June 1-4, 2008. Registration for the beta program for the product will also commence at the event.

DFMPPro is a revolutionary Design for Manufacturability (DFM) tool which facilitates upstream manufacturability validation and identification of design areas that are difficult, expensive or impossible to manufacture. Used at the designing stage, this tool allows quick and in-depth examination of product manufacturability and potentially, product manufacturing costs. DFMPPro performs rule based checks which can predict manufacturing problems early in the designing stage. It considerably reduces the design review steps, thereby pushing new products into the manufacturing stage swiftly. For more information, visit [www.dfmpro.com](http://www.dfmpro.com).

Other products that will be showcased at the event are [GeomCaliper®](#) for Pro/ENGINEER® and [eDrawings®](#) for Pro/ENGINEER®. GeomCaliper is a wall thickness analysis tool for designers in injection molding and castings, whereas, eDrawings is a light weight visualization tool to communicate designs through email.

### About Geometric

Geometric is a specialist in the domain of engineering solutions, services and technologies. Its portfolio of Global Engineering services and Digital Technology solutions for Product Lifecycle Management (PLM) enables companies to formulate, implement, and execute global engineering and manufacturing strategies aimed at achieving greater efficiencies in the product realization lifecycle.

Headquartered in Mumbai, India, Geometric was incorporated in 1994 and is listed on the Bombay and National Stock Exchanges. The company recorded consolidated revenues of 4.86 Billion Rupees (121.6 Million US Dollars) for the year ended March 2008. It employs close to 3000 people across 10 global delivery locations in the US, France, Romania, India, and China. Geometric is assessed at SEI CMMI Level 5 for its software services and ISO 9001:2000 certified for engineering operations.

Geometric's Desktop Products and Technologies (DPT) business unit develops cutting-edge point productivity solutions that enhance design and improve manufacturing operations. The end-user products from Geometric

include CAMWorks®, eDrawings® Publisher, DFMPPro™ and GeomCaliper®. The key technologies from Geometric are NestLib®, Feature Recognition (FR), GeomDiff and 3DSearchIT®. Geometric licenses these technologies to OEM partners and also designs and implements customized process solutions using these technologies for industrial customers.
